THE sub criber is aware that there is a number of kinds of Trusses already before the Public, but from experience in using a number of them hinnelf, and from the testimony of others that have worst them, he was induced to believe that a Truss better adapted to the wants of that portion of the community that have the misfortune to have a Hernia or Rupure might be made, and by the help of a kind Providence he believes that he has been chabled to invent a Truss preferable to any other now known. It is decidedly the safest and easiest to wear; and is a secure barrier against the cerape of the Viscera without in the least degree endangering the subjects spermatic cord. From the credit barrier against the escape of the recent viduous in the least de-gree endangering the adjacent spermatic cord. From the credit that they have already gained in the last year where they have been used, and from the certificates of numbers who have been curred by wearing them, and from the recommendations of Surgeons and Physicians who have seen them, and the general appropriation that the Truss has received for a number of miles a probation that the Truss has received for a number of miles a-round in every direction from this place, the subscriber can, with confidence, offer them to an enlightened public, believing that all that is necessary to secure for them in all places wher-ever they are offered for sale, that approbation they merit, is

ever they are offered for sale, that approbation they merit, is their use.

Six days is sufficient to satisfy any person of their superiority—and that time will be allowed to every one who bays a Trust to return it if he choose.

Persons at a distance can obtain a Trust to fit, by scaling the number of feet and inches they measure round, and on which side the Trust is to be applied.

A few of the many Certificates that the subscriber has in his passession, are inserted below, and offer a sufficient to satisfy the most incredulous, can be shown by his Agent.
